Carolyn

Please find attached the Residential Vapor Intrusion Work Plan for Priority Residences within the Study Area. As we discussed earlier this week, we will utilize the same sampling scheme and follow the same SOPs as was previously approved by the USEPA. We will be initiating the sampling at 2 Priority Residences tomorrow beginning around 10 AM EST. As an FYI, neither of these residences have accessible sewer cleanouts so I know for sure we will not be able to obtain sewer cleanout samples.

Please call me in the morning on my cell phone if you have questions or need anything else regarding this submittal.

Sincerely,

Bradley E. Gentry, LPG
